

**THE ARROW WEATHER** Vane was restored to the steeple of the First Congregational Church of East Machias Friday afternoon by The Steeple People, a climbing and rigging crew from the Kennebec district of Machias. Richard Lord of Addison operated the crane. Belden Morse and Doug Sprague installed the 6-foot directional arrow that was blown down Nov. 24, 1986, Thanksgiving night. The historic church will receive a new roof and other repairs with assistance from a statewide bond issue to restore historic buildings. (NEWS Photo by Clayton Beal)
